## Meeting objectives

The advisory board meeting aims at providing update about the Cloud LSVA and InLane project objectives and achievements to external experts in the field related to both projects.

The role of the advisory boards is also to provide regular and meaningful input to the projects by external experts on the automotive sector.

The Advisory Board will meet along with consortium members at least once a year, at specific project deliverables or milestones. It will also serve as a dissemination path for the Cloud-LSVA and InLane projects.

Actually Cloud LSVA and InLane projects have scope of works with significant similarities, so that it is very useful to allow the advisory board members, as well as both project beneficiaries to meet together and exchange views.

## Meeting Agenda

Tuesday, 27 September 2016 – from 9:30 to 17:00
